Grow Your Wealth In Turbulent Times

FINDING 15% + INVESTMENT OPPORTUNITIES

Join us for a series of exclusive investor seminars throughout California this January.

The global markets are in tumult, the dollar is

sliding, the stock market is teetering, and you hear talk of a severe recession...

To help you cut through the fog, we are hosting a special seminar entitled, "**Grow Your Wealth in Turbulent Times: Finding 15%+ Investment Opportunities**" in a series of exclusive investor events that will be held throughout California in January.

In addition to Newsmax publisher Christopher Ruddy and MoneyNews.com investment expert David Frazier, famed political guru Dick Morris will be joining us to offer his take on how the '08 elections will affect your portfolio.

**"It is not
necessary to do
extraordinary
things to get
extraordinary
results."**

WARREN BUFFETT

Dick is predicting a Democratic takeover with enormous changes for capital gains, taxes, budget priorities and other areas, with broad-based economic consequences.

Presented by **Newsmax, MoneyNews** and **Financial Intelligence Report**, at each seminar, we will discuss how current market conditions are creating unique investment opportunities worldwide with a panel of experts in pursuit of wealth appreciation and high-yield income opportunities in today's economy.

For the first time, we will also discuss how investors can still reap Buffett-style returns of 15-20% per annum over the next few years using global investments and commercial real estate.

Agenda items to be discussed:

- The Dollar Slide: Protecting Yourself
- Baby Boomers: Stock Market Dangers Ahead
- Investing Globally: Picking the Right Emerging Markets
- The Great Inflation Rip-off
- High-Yield Income Investments

At each event held throughout California, we will discuss global market conditions and high-yield income opportunities.
